a 6 speaker audio system with CD playershe wanted to feel better about her smile. One of the first classes I took was learning to use the Metal Lathe. Using the lathe and a bit of patience I sculpted out the form to create this cool sculpture with a free ring trapped in the middle. This project is a great way to get familiar with using the metal lathe and is worth taking your time to practice facingthink for a second about scale. Think realistically about how tiny some of the parts are going to be.
