The silos were used to hold grain to help feed defenders of the palace during sieges.Upon entering the palace itself you will notice that there is a small chapel located just to the right of the grand staircase. This Chapel was not a part of the original design of the palace and was added by the Italians during their reconstruction of the palace.As you ascend the grand marble staircase that takes visitors up to the first floor of the palace you get a heightened sense of what lies ahead. Everything in here is large and you quickly gain a keen appreciation for the opulence and detail of work that went into the restoration of the palace.Richards M. There definitely a lot of soul in the delivery of Van Morrison.
